

Beyond Broadcast... Beyond Recording... ...Pure Audio Supremacy

Trusted by Oscar-winning sound engineers worldwide, Sound Devices brings the pinnacle of audio innovation to India with the Scorpio mixer-recorder and A20-TX transmitter. Built to outperform, these tools deliver surgical precision, studio-grade clarity, and unmatched reliability from chaotic sets to pristine studios.

Products belong to Sound Devices. Specs may change without our control

SPECIAL FEATURES

SCORPIO

- **32-bit float recording** – captures every detail, distortion-free.
- **Dante, AES, USB, and analog I/O** – seamless integration for any workflow.
- **Scorpio's custom-engineered power architecture** – stable power even in extreme Indian conditions.

A20-TX

- **GainForward Architecture** – set levels once, adjust remotely with zero compromise.
- **SpectraBand tuning range (169–1525 MHz)** – widest global compatibility ever.
- **RF Power output** from 2 mW to 40 mW.
