

# Delta Array Systems

## Delta 925FS, 915-20LA, 915-40LA

The Delta Array System redefines professional sound with power, precision, and flexibility. Combining the robust 925FS frame with 915-40 and 915-20 modules, it delivers unmatched performance for concerts, events, and installations.

Engineered for perfect coverage, Delta seamlessly blends near-field and far-field audio. The 915-40 projects incredible clarity over long distances, while the 915-20 ensures rich, immersive sound for audiences up close.

From stadiums to theaters, the Delta Array System scales effortlessly to any venue. With fast deployment, modular versatility, and consistent sonic excellence, it sets a new benchmark for next-generation live sound systems.

Max SPL	Coverage Angle	Frequency Response	Transducers	Enclosure
<b>Up to 139 dB</b>	<b>40° - 20°</b>	<b>45 Hz – 18 kHz</b>	<b>3" HF + 15" LF</b>	<b>Birch Plywood</b>
